Education

Asansol Engineering College

Aug 2023 – July 2027

Bachelor of Technology in Computer Science

Relevant Coursework: Web Development, Data Structures and Algorithms, Operating Systems, Database Management Systems, Computer Networks, Object-Oriented Programming, Software Engineering

Experience

Frontend Engineer (Intern Role)

Bangalore Urban, India

Advertyzement

July 2025 – Present

- Engineered GraphQL integration within a **React-based frontend** (team of 3), slashing redundant network calls by 50% and increasing data retrieval speed by 25%.
- Architected a modular test suite with **Vitest** and **React Testing Library**, ensuring robust validation and attaining **95% test coverage**.
- Executed a mobile-first, cross-browser UI overhaul (Chrome, Firefox, Safari), achieving **100% Lighthouse accessibility** and strong performance across all devices.
- Migrated legacy JavaScript code to modern **ES Modules**, improving maintainability and reducing technical debt by 20%.

Projects

Streamify | React, Tailwind CSS, RapidAPI

Live | GitHub

- Developed a responsive YouTube clone using **React**, **Tailwind CSS**, and **RapidAPI**, delivering a seamless and modern UI experience.
- Optimized API integration for video search and playback, **reducing load times by 40%** and improving perceived performance.
- Customized mobile-first layouts with Tailwind, boosting UI responsiveness and **enhancing usability by 30%**.

EdTech Platform | React, Tailwind, Node.js, Express, Mongoose, JWT

Live | GitHub

- Engineered a full-stack course platform supporting **course creation, enrollment, and tracking for 1000+ users**.
- Streamlined backend logic with **Express.js** and **Mongoose**, **cutting API response times by 35%**.
- Secured user authentication using **JWT and Bcrypt**, ensuring encrypted data flow and role-based access.

KeyCrypt | React, TailwindS

Live | GitHub

- Developed a secure and scalable password manager enabling users to store and manage **encrypted credentials with 100% reliability**.
- Transformed the UI into a user-friendly dashboard with **auto-fill** and **password generation**, improving usability by 40%.

Technical Skills

- Languages:** TypeScript, JavaScript, C++, Python, C
- Frameworks & Libraries:** Next.js, React.js, Express.js, Node.js, Tailwind CSS, Recoil, Redux, Bootstrap
- Databases & ORMs:** PostgreSQL, MongoDB, Mongoose, Prisma, Drizzle ORM
- Tools & Platforms:** Git, GitHub, Vercel, Postman, LeetCode

Achievement

- Solved over **1800+** DSA questions on LeetCode, GFG, and other platforms.
- Ranked **831** in LeetCode Biweekly Contest 161
- Secured **77th rank** in the DSA MasterMind round of CodeClash Hackathon.

Soft Skills

Collaboration, Leadership, Communication, Decision Making, Creativity
