Education

Asansol Engineering College

Aug 2023 – July 2027

Bachelor of Technology in Computer Science

Relevant Coursework: Web Development, Data Structures and Algorithms, Operating Systems, Database Management Systems, Computer Networks, Object-Oriented Programming, Software Engineering

Experience

Software Quality Intern

Bangalore Urban, India

Advertyzement

July 2025 – Jan 2026

- Improved application reliability and frontend performance through optimized GraphQL integration, reducing redundant network calls by 50% and improving data retrieval speed by 25%.
- Developed and maintained test suites using **Vitest** and **React Testing Library**, supporting feature validation, debugging, and consistent application behavior.
- Performed cross-browser testing and UI validation across Chrome, Firefox, and Safari, achieving strong accessibility and responsive performance standards.
- Enhanced code maintainability by migrating legacy JavaScript modules to modern ES Modules, reducing technical debt and improving project structure.

Projects

Cerebro | Typescript, React, Tailwind, Node.js, Express, Mongoose,

GitHub

- Developed a responsive Cerebro app using **React**, **Tailwind CSS**, and **Node.js**, decreasing page load times by 40% and contributing to a seamless and modern user experience.
- Refactored API integration for **YouTube** and **Twitter** post storage, improving API response efficiency and refining search functionality.
- Customized mobile-first layouts with Tailwind, boosting UI responsiveness and enhancing usability.

EdTech Platform | React, Tailwind, Node.js, Express, Mongoose, JWT

Live | GitHub

- Engineered a full-stack course platform supporting **course creation, enrollment, and tracking**.
- Streamlined backend logic with **Express.js** and **Mongoose**, **cutting API response times by 35%**.
- Secured user authentication using **JWT** and **Bcrypt**, ensuring encrypted data flow and role-based access.

FeedbackAI | React, Tailwind CSS, Vite, Node.js, Express, Groq API

Live | GitHub

- Built a responsive AI-powered feedback platform **Smart Feedback AI** using **React**, **Node.js/Express**, **Groq API**, serving 100+ users, reducing feedback turnaround by 35% and boosting engagement.
- Designed a modern interface with **real-time feedback** and **interactive suggestions**, improving usability.
- Streamlined **content submission and feedback workflow**, improving user efficiency and increasing engagement.

Technical Skills

- **Languages:** JavaScript, C++, C
- **Frameworks & Libraries:** React.js, Express.js, Node.js, Tailwind CSS, Recoil, Redux, Bootstrap
- **Databases & ORMs:** MySQL, PostgreSQL, MongoDB, Mongoose
- **Tools & Platforms:** Git, GitHub, Postman, Vercel, Chrome DevTools

Others: Software Testing, API Testing, Debugging, Quality Assurance, Data Structures and Algorithms, OOP, Operating Systems, Computer Networks

Achievements

- Solved 2000+ DSA problems across LeetCode and coding platforms, strengthening analytical and problem-solving skills.
- Secured **77th rank** in the DSA MasterMind round of CodeClash Hackathon.

Soft Skills

Collaboration, Leadership, Communication, Decision Making, Creativity, Adaptability
